

# Precision Livestock Management Is It Worth It? and Sub Clover Trial Pasture Walk

This day commences with a pasture walk at the MLA Sub Clover Pasture Root Disease Project site at 3.00pm on Nick Edwards and Janelle Hocking-Edwards property

This pasture walk will be **FREE** to attend

***DIRECTIONS FOR PASTURE WALK:*** *The Washpool, Avenue Range. Located on the right hand side at the 80km sign heading into Avenue Range coming from Lucindale. Head down the driveway for 2km. Nick Edwards 0429 660 067*

**(Attend one or both parts of the day)**

**Day concludes with a free dinner for attendees sponsored by Allflex at Lucindale Hotel at 6.00pm**

**GPS guidance for livestock. A workshop to understand what technologies are available and importantly, are they economically viable?**

- How new technologies such as eID, Pedigree Matchmaker, autodrafters and fleece testing can create a more productive flock.
- What are the major profit drivers in sheep enterprises and how should this be used to direct any investment.
- How data collected with this technology can be used to create a more profitable enterprise.

*Don't miss this opportunity for an objective look at the role of new technologies in your sheep flock*

- **PRESENTED BY** Hamish Dickson
- **WHEN** Tuesday 13th October 4pm - 6pm for eID Workshop
- **WHERE** Lucindale Hotel
- **REGISTRATION FOR BOTH EVENTS** Tiffany Bennett Ph.0887629126 [tiffany.bennett@sa.gov.au](mailto:tiffany.bennett@sa.gov.au)
- **INVESTMENT FOR EID WORKSHOP** MFMG members free or \$50 per business for all other attendees.
